ACME GO RACK is a **live production powerhouse** built for in-place studio environments or mobile on-the-go production rigs.

Compact Design

Designed for maximum space efficiency, the ACME GO RACK is built into an ultra-short depth 2U (optional 3U) rackmount configuration. At just over 16" deep, you won't need a huge transport rack case to house a unit for your OB truck or vehicle.

Flexible Inputs

Video I/O is delivered using best-of-breed AJA and Magewell technology. Pro-level 3G HD-SDI inputs allow for long cable runs with locking connectors. On 4/4K units, the additional 4K HDMI input provides the ability to ingest 4K camera footage.

| PRODUCT | ACME GO RACK 2U | ACME GO RACK 3U |
|------------------------|--|---|
| VIDEO INPUT/OUTPUT | 4x Bi-Directional HD-SDI, or 4x Bi-Directional HD-SDI + 1x 4K HDMI input | 8-Channel Bi-Directional SDI |
| CPU | Intel Core i7-8700K, 4.2GHz, 91W | Xeon Processor |
| GRAPHICS CARD | GTX 1050 Ti 4GB | RTX A5000 |
| MEMORY | 16GB DDR4 Memory | 32GB Memory |
| STORAGE | 250GB M.2 SSD System Drive | 2TB OS |
| LAN 10/100/1000 BASE-T | N/A | Dual 10Gbit LAN |
| DIMENSIONS | Width: 19.00" (482.6mm), Height: 3.50" (88.9mm), Depth: 16.94" (430mm) | Width: 19.00" (482mm), Height: 5.22" (132.6mm), Depth: 17.17" (436mm) |
| SOFTWARE OPTIONS | vMix Pro | vMix Pro |

BUILT TO YOUR SPECS

Our in-house engineering and design team is able to create custom solutions, either adding modifications of our standard products or full custom designs. Our sales engineers will work closely with you to truly understand the problem, specific certification requirements, quantity and schedule.

QUALITY TESTED

We pride ourselves in our strict quality control and high standards. Our factory is ISO 9001 certified, and all units are thoroughly inspected and tested in the USA before shipment. Warranty is offered on all units.

With over 25 years of experience, we pride ourselves in creating unique computing platforms that are customized specifically for demanding applications. Our portable computers are built to support intensive applications, additional PCIe cards, large disk storage, and multiple displays. From graphic-intensive applications to high-density storage servers, our computers are used in a number of industries, including digital media & broadcasting, test & measurement, and government & military.
